EXPERIENCE

Product designer Intern

Mar 2026 – Present

Galactic 3D PVT LTD

Hybrid, India

- Contributed to UI/UX design and frontend development of the company website
- Built structured workflow-driven solutions from product and software perspectives
- Assisted in developing digital platforms and internal systems
- Collaborated with cross-functional teams to translate workflows into digital solutions

Frontend Developer

Dec 2025 – Feb 2026

Angstromers

Remote, India

- Designed and developed responsive web interfaces using HTML, CSS, and JavaScript
- Built end-to-end frontend features with focus on usability and performance
- Maintained reusable components and clean code architecture
- Debugged and optimized application performance independently

PROJECTS

Walkman — Desktop Music Player

Feb.2026

- Designed and developed a clean, modern desktop music player with intuitive user interface
- Implemented core playback features, playlist management, and Last.fm scrobbling
- Built custom audio processing using Web Audio API for smooth playback and effects
- Solved metadata and encoding issues through an efficient track registry system
- **Tech Stack:** Electron, React, TypeScript, Web Audio API, Node.js

Clearoid — Data Processing Tool

Dec.2025

- Built a full-stack data deduplication and validation platform
- Designed intuitive user interface and workflows for data upload, preview, and processing
- Developed frontend and backend architecture with focus on usability and scalability
- Implemented core logic for duplicate detection and automated data workflows
- **Tech Stack:** React, Tailwind CSS, Python, SQL, Git

EDUCATION

Master of Computer Applications (MCA)

Dec 2024 – Present

Cambridge Institute of Technology

Bengaluru, India
